Hi Eryka did u hear back anything on keeping our Idaps in the dist lists?

I see no activities and emails coming our way

Thx
Evren

Absolutely, just sent through the request. Will let you know when I hear back.
Thanks!

very helpful

would you mind asking the owner to add the 3 of us to the list directly please as i am sure you will have much faster pull than others in Tariq's team :)

thanks Eryka

Thx

It looks like cloud-dir is a sphinx list with the following description:

cloud-dirs

Sphinx managed list of L8+ reporting up to bcalder, stevensb, blutch, sano, ashai, feifeili, cgrimes, emanor, melody, kripa, sramji, aseligman, niels, gchaffee

The group does allow for you to contact the owner and the manager - they may be able to add you to this group manually.

I'll keep poking around, but wanted to give you this info asap.

We as OCTO were not in Urs' line of report either but we were still part of the Cloud Directors dist list

Thx

It has to do with the cost centers and reporting orgs...cloud-dirs is limited to urs line of reporting. i'll poke around re: an expanded cloud-dirs distro, but it would likely have to be something new rather than expanding current cloud-dirs membership.

unfortunately, I don't have a full list of distros that OCTO belongs to...wonder if [+Eryka Wetherall](#) would know an easy way to find out?

Will

I share Evren's concern. Could we get a list of lists that OCTO had access to? Then we can ask to get verticals teams to be added to that. Right now I don't even know what we would be losing by leaving OCTO.

Hi Will

Hope all is well

I am sure Ülkü and Ben will also agree, One of the biggest fears we have is being disconnected from rest of cloud and it already is happening

for example we r no longer in the cloud directors dist list - I was able to verify this when I received the same email through another fwd

What do we need to do to ensure we remain members of those dist lists

Thx
